

# TERRIDA

**Terrida, the Venetian company that produces handmade bags in Venice, was born from the Italian tradition of fashion and the cult of details**

The story of Terrida begins in the seventies when Anna and Sergio Terrida start an artisan production of leather goods, dedicating to us passion, innovative spirit and love to create original pieces of Italian craftsmanship, designed and produced entirely in Italy and especially in Venice.

Their children Pierluigi and Monica, learned the secrets of the trade from an early age, in 1985 decided to continue and transform the previous activity of their parents, creating new items in step with the needs and requirements not only of the traveler, but also of the sportsman. From travel bags to suitcases, from sports bags to golf bags, the company's mission is to dedicate itself to luxury combined with traditional craftsmanship and modern technology for the creation of a prestigious product. Products designed and created for people with a simple and refined taste at the same time.

Today Terrida is a brand known all over the world for its high quality products, whose production is **MADE IN ITALY**. The passion for golf and tennis led Terrida to create a line dedicated to these sports, becoming fundamental in their production.

**SPORT COLLECTION**

## **SPORT**

Sport is a line that demonstrates Terrida's creativity. It is a line that was developed for the avid golfer who always looks good. It is for the one who demands quality and reassurance that their bags can keep up with the active lifestyle that they enjoy.

## IMPERIAL GOLF BAG

This gorgeous golf bag is not only an efficient wrap for sport and your golf clubs, it is synonymous with royalty, style and functionality. It has several multiple compartments to divide everything you need during the race or game between friends and colleagues. Plus, tell your story and attest to your incredible style to show off an article of this magnitude. It represents an icon of the Terrida's World and of Made in Italy because it is handcrafted in every part: created, shaped, cared for and educated by expert craftsmen who breathe life into it thanks to their experience.
