TERRIDA

The TERRIDA story begins in 1970 with the foundation of a new style of luxury. Sergio and Anna Terrida embark on a journey that would bring them a lot of success.

TERRIDA has developed strong bonds with clients who want only the best quality.

MADE IN ITALY, MADE IN ETHICS, MADE IN MAGIC.

It all started from the dream of our parents, Anna and Sergio, they love our country. They understood that Italy is a "Museum Nation". They believed that Made in Italy was the way. We, Monica and Pierluigi, their children believe in this dream. Our Mantra is Made in Italy, Made in Ethics, Made in Magic.

"Made in Italy" is a value but no longer enough: our products are made of "sustainable" materials. "Made in Ethics" man at the center, highlighting the value of each person. "Made in Magic" the art and magic of manual creativity and ideas.

THE COLLECTIONS

The TERRIDA collection is a result of careful production and the use of only the highest quality leather and fittings available in Italy.

We have selected the finest leather skins - tanned in the most exceptional and time-honored methods. After skin selection, TERRIDA employs the same patience in the development of each product. It is the long-standing philosophy of TERRIDA closely watches each step of production, from creation to final approval.

The end result: a first quality product constructed and designed to last the test of time.
