

CA. D'ORO

A name that evokes intrigue, passion, romance, and charm is the inspiration for the creation of this collection.

Its beautiful and precious Venetian brocade fabric incorporate the elegance of the classic colors of the lagoon city. Hues of old red echo the passion and desire of the sensual Casanova, while the gold is reminiscent of the facades of the ancient dwellings.

Turquoise calls to mind the deep connection between Venice and its glistening sea.

Specifically designed for the elegant and confident woman, particular attention was made in the selection of its finishings and accessories. Hold this bag and get carried into the dream of watching your Venetian palace getting kissed by the glow of the sunset.
